NEET-SPECIAL

SCHOLARSHIP

[www.guidancepoint.org](http://www.guidancepoint.org)

There is always a road going towards your dream,  
you just need to find it.

## ABOUT US

To get head start in careers, students aspire to acquire their medical or engineering degrees from top institutes of the country like AIIMS, AFMC, GMC, IIT, NIT etc. Such institutes have entrance examinations like NEET/JEE.

In these examinations, success ratio is very less (1%) Seats are limited, competition is intense so the key to success is to start preparation at early stage. Keeping this in mind we at Guidance Point have developed IIT - MEDICAL FOUNDATION Program.

Ideally student should start with PHASE- I in standard 7. Over the years as student complete PHASE- IV in standard 10, he/she will be well versed with the syllabus of standard 11 & 12. Now invest those 2 years of Junior College to sharpen the already learnt skills. As we know Well begun is half done !!!

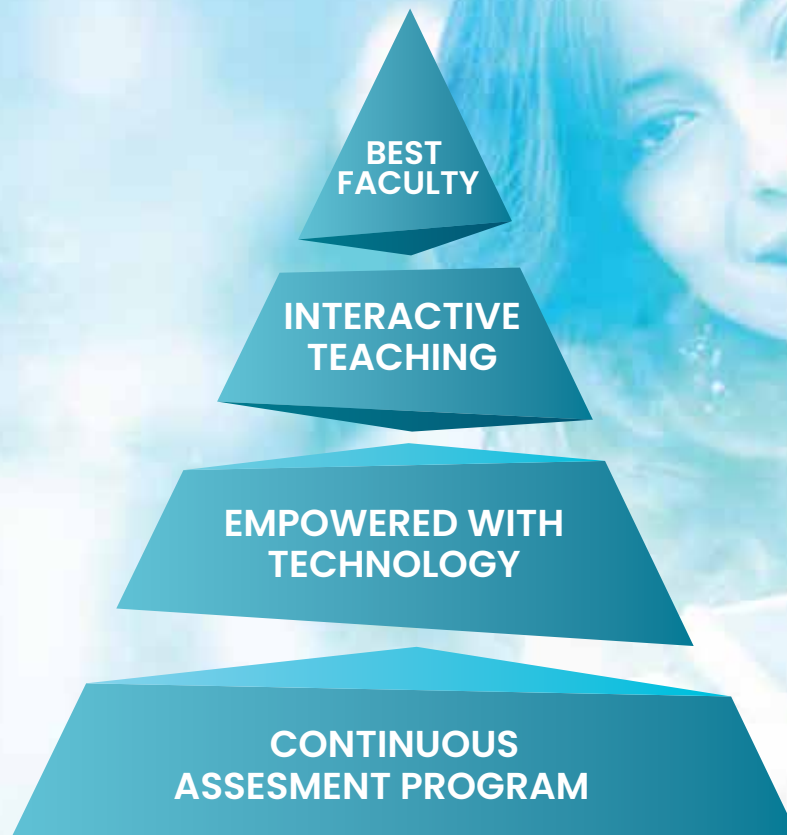

Along with the preparation for future examinations, we expect that our students should succeed in the regular academics. To address this, we have introduced Integrated Program where school syllabus is taught on weekdays & foundation syllabus on weekends.

At Guidance Point to deliver quality education, we strongly emphasize on developing solid foundation in our students to compete any national and international level exam. Our team leaves no stone unturned to provide student with best inputs to stand high at any point in the field.

With Guidance point, you become a part of a powerful force that propels you towards success !

# WHY SHOULD YOU JOIN US ?

- To excel in School Examination as our integrated courses cover the school syllabus.
- To prepare for competitive Examination in a systematic manner & in stress free environment
- To master fundamentals and acquire the in-depth knowledge of subject.
- To update with the pre-requisites of competitive exam.
- To develop temperament, attitude and habits for facing the objective based competitive exam

# NEET SPECIAL

## National Eligibility Cum Entrance Test - NEET (UG)

NEET (UG) is an all - India entrance exam conducted by National Testing Agency (NTA) for admission to MBBS / BDS / AYUSH and BVSc Courses.

## Why NEET Coaching with US

### Conceptual Clarity -

NEET emphasizes the need of immaculate fundamentals. Quality time is spent on each topic for exploring the basics, supported by the examples, practical applications practice exercises & revision sessions.

### Quick & Accurate Problem Solving Skills -

NEET requires the student to apply fundamental knowledge for solving the problems quickly and accurately. We teach a logical approach of problem solving by splitting the problem into manageable fragments & tackling them in a systematic manner.

### Personalised Doubt Clarification Session -

We believe that every student is unique and needs careful guidance and mentoring to succeed. We keep our batch size small, to maximise the personal attention. Regular doubt sessions are held and these help in building strong fundamentals to the students.

Special session on test strategies & study plans to motivate students in their preparation.

## Smart study material

- Around 40-50 e-books for smart practice with regular assesment
- Unlimited Tests
- Smart Data Analysis

## NEET Courses Offered

We offer a wide range of courses in terms of duration for those who intend to prepare for NEET

A two year course after 10<sup>th</sup> std which has Lectures, tests and discussions.

A one year course after 11<sup>th</sup> std which has Lectures, tests and discussions

# Scholarship Examinations

An important exam during primary & secondary school education is Scholarship Exam conducted by MSCE Pune. It brings out the versatility of an academically brilliant student through various skill sets.

The School tests evaluate the students on the basis of their capacity to memorise and practiced work. But in Scholarship their ability to understand the given problems logically and other intellectual abilities are tested. Also they are tested against an important parameter 'Time'. This is a special mould which is not fit for general student.

We at the Guidance Point provide a structured program for the same. The skills those aren't able to be simply memorised twenty-four hours before an exam.

## **The various ways we test the children for this exam are**

Verbal & Numerical Reasoning.

Explaining the basic concepts for a chapter.

Application of two or more concepts in combination.

Comprehension for both the languages.

Reading skills developed in students help them to interpret the content and go for a logical correct solution,

Grammar

## Practice, Practice & Practice

Both teaching and Practice for each and every aspect of the problem is done in class room sessions, homework and Exams conducted at the end of syllabus.

Masters in this field are available for guiding the students before exam. A free environment for students to discuss their doubts is possible because of limited batch Size.

We take care that an individual in the group also get attended for any problem.
